

WellBeing Ensures Safe and Healthy Restrooms for Education

WellBeing's Automated Hygiene Technologies and Services Include:

- Touch-Free Feminine Hygiene Units
- Anti-Bacterial Soap Dispensers
- Touch Free Hand Sanitizer Stations
- Air Fresheners & Sanitizers
- Automatic Flush Units & Toilet Cleaners
- Touch Free, Automatic Faucets
- MisMats for Toilets and Urinals

Educational Facilities Choose WellBeing's Services to Provide

- o Infection control in the restroom for colleges, universities, technical schools, and school systems
- o Security against emergency call outs for Physical Plant directors
- o Touch free restroom services that support "Green" initiatives
- o Employee retention and decreased sickness and downtime
- o Protection against harmful bacteria such as E-Coli, MRSA, HIV, and Hepatitis
- o Decreased risk of cross contamination
- o Lower Absenteeism
- o Decreased water consumption and cost per hand wash

"Berry College is proud of the fact that we have the largest campus in the world with over 28,000 acres. We have many buildings that use Hygafem's comprehensive services. WellBeing's technicians are all trained in blood borne pathogens and their disposal according to OSHA standards."
